Declaration

I understand that images from NUS Libraries' Special Collections are made available for educational, profit and non-profit purposes, and are released for a one-time use only.

I understand NUS Libraries is providing the very low resolution of digital images (100dpi) from its post card collection for the preliminary AI application study of your project titled "Structured Annotation Framework for Culturally Grounded AI Evaluation in Historical Visual Culture" under the copyright clause explicitly adopted in Singapore in section 191 of the Copyright Act 2021 which enumerates a non-exclusive list of four factors to be weighed to determine whether an unauthorised use is fair, and hence a permitted use.

I agree not to reproduce, transfer, publish, broadcast or post the image(s) on any channel without prior permission from NUS Libraries, Special Collections.

I agree to credit NUS Libraries for the use of images. NUS Libraries' preferred credit line for publication, public use, broadcast and exhibition purposes is "Courtesy of NUS Libraries Postcard Collection".

I understand that NUS Libraries makes no representation that it is the owner of any copyright of materials and I am responsible for copyright clearance from the rightful copyright owner.
